Introduction

This report will help you as plan fiduciaries better understand the costs associated with your retirement plan - for both you as a plan sponsor and for your plan participants. The report is designed to meet the ERISA fee disclosure regulations of the United States Department of Labor (DOL).

We have summarized the plan cost components, and have provided a description of the services provided for those costs. We feel that the more you know about the costs in your plan - including all fees and expenses - the better you will understand the value of Empower Retirement.

Fee transparency is a sponsor and participant right

Sponsors and participants are entitled to clear information about the fees and expenses associated with their retirement plans.

Fee transparency is integral to meeting fiduciary responsibilities

We believe that understanding the relationship between cost and benefit is a crucial part of a plan sponsor's fiduciary responsibilities.

ERISA Requirements

DOL regulations require certain service providers that receive more than \$1,000 in compensation to make explicit disclosures to certain retirement plans that they serve. For more information, please visit the DOL Employee Benefits Security Administration's website (www.dol.gov/ebsa).

What This Report Contains

This report provides an estimate of the fees paid by your plan.

As your plan's Recordkeeper, we may make payments to other plan service providers on behalf of the plan. We are not responsible for the disclosures of any unrelated service providers.

This document begins with a high-level summary of the estimated fees and becomes detailed throughout each section. All the information shown is in dollar figure estimates, where appropriate. To simplify readability, superscript letters identify dollar figures that carry over from one section and appear in another section as a line item.

Some of the services and fees described may not be applicable to your plan but are representative of available services.

Although not an affiliate of Great-West, United Bank has been identified as a Covered Service Provider ("Bank-CSP") to your plan and serves in the capacity of an ERISA fiduciary.

Section 1: Investment Providers (IP)

The investments offered by the plan have related expenses. The amounts listed are the annual percentages deducted from funds and the annual percentage revenue received from the funds (where applicable) based on the value of the plan's investment in the fund. More information is provided in the following table, and may depend on the type of fund being utilized.

Please see the Prospectus for more detailed information on fees, services, and receipt of fees among affiliates.

Other Investment-Related Fees:

The investment funds offered by your Plan may have fees that are retained by the fund company or other investment provider as payment for ongoing management of the fund and other services. The fee amounts will vary from fund to fund and are generally charged as a percentage of the fund's value.

Please refer to the latest investment materials such as **prospectuses and other regulatory disclosures for each of the funds** held by your Plan (as provided by your Plan's investment advisor or directly from the fund companies or investment firms) for details regarding services and fees.

The latest prospectus and other regulatory documents for each of the funds held by the plan can be found within the Investment section of the Plan Service Center.

This list of investment fees is intended to give the plan a list of the most important fees being charged to the plan or its participants. It is intended to provide information regarding all material fees, but may not be comprehensive and may not include information on fees such as Self Directed Brokerage Accounts, Life Insurance, Employer Stock, etc. For other fee information, please refer to all other plan documents including service agreement and/or prospectus, including information that may be needed to comply with Participant Disclosure obligations. As your Recordkeeper, we make no representation as to the completeness or accuracy of materials, such as prospectuses, created and/or provided by a third-party investment provider.

Mutual Fund Expense Ratio & Collective Investment Trust (CIT) Expense:

The Service Provider has entered into agreements with certain mutual funds/CITs (or their service providers, including advisors, administrators or transfer agents, and underwriters) whereby the Service Provider provides shareholder and/or distribution services and receives compensation from the mutual fund/CIT (or their service providers) based on the value of the plan's investment in the fund/CIT. This compensation may include fees for administrative and other expenses and/or fees paid under a plan of distribution under SEC Rule 12b-1 ("12b-1 fees"). The fees received by the Service Provider are included in the expense ratio described in the applicable fund's prospectus or similar disclosure document, and reduce the investment option's net asset value (NAV). Generally, fees and expenses included in the expense ratio are deducted at regular intervals based on a percentage of the investment option's average daily net assets. For CITs, an investment company may include other fees that are not disclosed in this fee disclosure document but are provided in a separate disclosure under separate cover.

Additional Fund Compensation:

The Service Provider may receive additional revenue as a finder's fee from non-affiliated fund companies as shown in the prospectus and other regulatory documents for each of the funds held by the plan. The Service Provider may also receive additional revenue in the form of conference sponsorship fees from non-affiliated fund companies to defray training and educational costs of staff.

General

Gain/Loss Disclosure:

If the Recordkeeper makes an error that results in an investment transaction gain or loss, and it is brought to the Recordkeeper's attention within ninety (90) days after the Participant statement date following the occurrence of the error, the Recordkeeper will retroactively correct the error by putting the Participant back in the financial position where the Participant would have been had the error not occurred. However, if the Plan or affected Participant knew or should have known of the error but failed to bring it to the Recordkeeper's attention within ninety (90) days after the statement date following the occurrence of the error, the error will be corrected prospectively. If a correction is made at the Recordkeeper's expense and results in a net loss, the Recordkeeper will bear the loss. However, if the correction results in an unintended net gain, the Recordkeeper will retain the gain as compensation for services provided to the plan and to defray reasonable expenses of the plan including offsetting net losses as described above.

Under special circumstances, the Recordkeeper may consider an exception to the above and make a correction at the Recordkeeper's expense. If Plan Sponsor requests such an exception based on the circumstances identified, a correction will not be unreasonably denied, based on industry standards.

In no event will the Recordkeeper be responsible for the expense of retroactive correction caused by an error or miscommunication committed by a Participant, Plan Sponsor, or other third party. In such case, Plan Sponsor will instruct the Recordkeeper how it wishes any resulting gain to be allocated or loss to be funded.

Bank Credit Disclosure:

If the Plan's assets pass through a bank account held by Retirement Plan Services (Great-West) or its affiliates/subsidiaries (Great-West Financial Trust Company LLC and EMJAY Corporation), it may earn credits and/or interest on Plan assets awaiting investment or pending distribution. Any credits or interest earned by Great-West are aggregated with credits and/or interest earned by Great-West affiliates/subsidiaries and will be used to defray the aggregate expenses for the maintenance of bank accounts. Great-West will not retain credits and/or interest earned in excess of such maintenance expenses.

Credits and/or interest are earned from the use of (i) uninvested contributions received too late in the day or not received in good order to be invested same-day and (ii) proceeds from investment option redemptions where Plan distribution checks have not been presented for payment by Plan participants. Credits and/or interest (i) begin to accrue on contributions, on the date such amounts are deposited into the bank account and end on the date such amounts are invested pursuant to Plan participant or Plan representative instructions and (ii) begin to accrue on distributions, on the date the check is written or on the wire date, as applicable and end on the date the check is presented for payment or when the wire clears again the account, as applicable.
