

2019-2020 WINTER CLASS SCHEDULE I.U.O.E. LOCAL #132 TRAINING SITE

CDL CLASSES - Written: February 3-7, 2020

Driving: March 30 – April 3, 2020

Federal and State law requires anyone operating vehicles grossing 26,000 pounds or more on the highway (this includes rubber-tire cranes, motor graders, loaders, mechanics trucks, grease trucks, etc.) to have a Commercial Driver's License. This is an 80-hour class (2 weeks) preparing you to take the written exam, skills test and scheduling you to take both. *Participants attending this class are required to have a DOT Physical and present a completed Physical Form the first day of class.*

CRANE & RIGGING CLASS – October 28 – November 8, 2019

This is an 80-hour class (2 weeks). This class will contain both hands-on and classroom training, and will include crane safety and load chart reading. Rigging training will include classroom and hands-on as well. **This is not a certification class.**

EXCAVATION & TRENCHING CLASS – December 2-13, 2019

This is an 80-hour class (2 weeks). This class contains both hands-on and classroom training. This class will be pipeline oriented, as well as highway and utilities.

GPS DOZER/GRADER CLASS – November 11-15, 2019 & November 18-22, 2019

This is a 40-hour class (1 week). This class will contain basic grade checking, cut grade slope with dozer, grader and excavator, functions of GPS controls, and software.

HAZ-MAT CLASS – January 13-17, 2020

This is a 40-hour class (1 week). This class is required for anyone that works at a hazardous waste job site. Also, many chemical plants and gas (pipeline) company owners are requiring this training.

HAZ-MAT REFRESHER – January 6-10, 2020 **Monday - Friday**

This 8 hour class is for members that have already taken the 40-hour class and are currently hazmat eligible. Federal Law requires that after taking the 40-hour class participants have an 8-hour annual refresher.

NCCCO WRITTEN TESTING - NCCCO Sign Up: January 5, 2020 at 8:00am

NCCCO Class: January 20-24, 2020

NCCCO Written Exam: January 25, 2020

OSHA 10 HOUR CONSTRUCTION INDUSTRY CLASS – December 18-19, 2019

This is a 2 day class. **You must attend both days of class in order to receive your certification card.**

VACUUM PIPE LIFTER CLASS – Multiple Classes will be offered December 2019 thru January 2020.

This is a 40-hour class (1 week). The completion of this class will provide an evaluation card in accordance to ASME Standard B30.20-2013. An evaluation requires the operator to perform safety tests, inspections, and general maintenance procedures. Operators must be safe and proficient in the operation of the machine and lifter.

***This is a specialty class, inquiries must be proficient excavator operators, and a crane background is a plus.**

December 16-20

January 20-24

January 27-31

INTERNATIONAL TRAINING & EDUCATION CENTER

The International Training & Education Center, located in Crosby, Texas, offers general training courses, and pipeline training courses that you can attend. For more information on training schedules, or to register for these classes online visit www.iuoe.org.

FORKLIFT CERTIFICATION

The Occupational Safety and Health Administration (OSHA) has revised its existing requirements for powered industrial truck operator training and has issued new requirements to improve the training of these operators. Anyone wishing to obtain their forklift certification should call the training site to be scheduled. Forklift certification must be renewed every three years.

CRANE CERTIFICATION

WV state law requires anyone operating a crane with the lifting capacity of five tons or more must have a certification from the West Virginia Division of Labor.

The National Commission for the Certification of Crane Operators (NCCCO) Examinations are competency-based examinations for crane operator reflective of crane operator knowledge and expertise for each of the specialties (Lattice Boom Crawler, Lattice Boom Truck, Telescopic Boom-Swing Cab, and Telescopic Boom-Fixed Cab). All candidates are required to pass both the written and practical examinations in order to be certified. Candidates must also meet CCO medical requirements. One thousand hours crane related experience is not required for new certifications. Anyone needing to schedule a practical examination, should contact the training site.

If you are interested in participating in any of these classes, please contact the training site at (304) 273-4852 or (800) 376-4852.

All classes are on a first-come, first-serve basis with limited openings available. Schedules for all classes are flexible and may be changed or canceled due to unforeseen circumstances.

Lunch will be provided for all participants during these classes. Rooms are available also on a first-come, first-serve basis.

The training site is open to members year-round, during scheduled classes, or for individual instruction on equipment.
